

Welcome to iHUB

The Pan-African Innovation Enabler

iHUB

iHUB is a globally recognized innovation center that has been the main catalyst for regional technology acceleration and a role model for tech hubs in emerging markets since 2010.

In 2019, iHUB was acquired by CcHUB, making us the largest innovation center in Africa. Centering our work on a pan-African level.

CcHUB

CcHUB is Africa's largest innovation network for accelerating social capital and technology for economic prosperity. With a physical presence in Kenya, Namibia, Nigeria, and Rwanda and offering a vast array of programs spanning various sectors in tech and creative economy.

What We Specialize In

Our Focus Areas

**Some of CcHUB's focus areas double up as practices within the organisation. These include:*

Innovation Support

We support individuals and organisations to smartly apply innovation and technology to solve commercial and social problems.

Startup Funding

We deploy catalytic capital to high-growth companies leveraging technology to solve critical challenges on the African continent.

Creative Economy

We explore the intersection of technology and society and seek to understand how emerging technologies affect the African ecosystem.

Design for Health

We take a human-centered driven approach for developing innovative and relevant healthcare solutions and interventions.

Education

Using research-backed methods & technology to improve learning outcomes.

Green & Sustainable Tech

To mainstream green and sustainable tech across all our focus areas and support green and sustainable tech innovators and ecosystems across Africa

Technology & Society

Exploring the opportunities and threats of technology on society, research, policy, digital resilience, governance, & elections.

Design Lab

We support individuals and organisations to smartly apply research, innovation and technology to solve commercial and social problems.

THANK YOU!
